NAS 1.24:

NASA HEADQUARTERS BUILDINGS ARE SECURE FROM 5:00 P.M. to 7:00 A.M.

EMERGENCY ILLNESS OR INJURY ASSISTANCE

DURING NORMAL DUTY HOURS

FB 10B NASA Health Unit (BA-36)	52054
Emergency Service only (BA-36)	52058
FB 6 Dept. of Education Health Unit (B039)	245-8855

NONDUTY HOURS, WEEKENDS, HOLIDAYS

In NASA HQ., D.C. Bldgs. call:

Ambulance	9-911
Police Assistance	9-911

BUILDING EQUIPMENT FAILURES 51440

DUTY OFFICE 755-3333

REPORTING SAFETY HAZARDS

Buildings Management	51440
Headquarters Safety Officer	58382

FIRE

FB-6 and 10-B Buildings: Call 9-472-1111 or 9-911 and then pull nearest Fire Alarm Box in Building.

R Building: Call 9-911 and then pull nearest Fire Alarm Box in Building.

GSA CONTROL CENTER

(For following emergencies 9-472-1111

a. Fire (FB-6 and 10-B only)
b. Bomb threats
c. Civil disturbances
d. Weapon display
e. Acts requiring prompt law enforcement response
f. Ambulance or rescue service

GUARD OFFICES

FB-6 Room 1137	755-9561
FB-10B Lobby	755-9644
R Bldg Lobby (After 4 p.m.)	755-3499

LOST AND FOUND

Contact Guard Offices at times and places listed above.

PRIVACY ACT STATEMENT PERTAINING TO NHQ FORM 4

The Social Security Number *(SSN)* is required since the alphabetical section of the Headquarters Telephone Directory is automated and is keyed to this number. It is collected for this purpose under the authority of PL 93-579. Although providing the SSN is voluntary on your part, failure to do so would result in our obtaining your number from your file.

SUBMITTED BY ▶	SIGNATURE	EXT.	OFFICE CODE	DATE

NHQ FORM 4 JUN 78 PREVIOUS EDITIONS ARE OBSOLETE.

Complete this card for changes in telephone No., Location or Code according to NMI 1590.1C and place in in-house mail to:

Federal Information Center

If a call has nothing to do with your office or NASA, direct the caller to the Federal Information Center. A specialist will find the office with the answers.

Federal Information Center:

7th & D Streets, S.W.
Room 5716
Washington, D.C. 20407
(202) 755-8660

NOTE: While Some Office Moves and Code Changes Are In Process, This Directory Is Current As Of January 1, 1982.

FREQUENTLY CALLED NUMBERS

This space provided for listing the telephone numbers you use most frequently

NAME	AGENCY	NUMBER

NASA HEADQUARTERS TELEPHONE DIRECTORY

USE OF OFFICIAL TELEPHONES FOR PERSONAL BUSINESS

Government telephones are not to be used for personal business (see NMI 2540.1). Telephone booths are located in all buildings for use in making personal calls.

CONTACTING FIELD PERSONNEL

The FTS system will be used for contacting personnel at all NASA installations with the exception of Goddard Space Flight Center, for which the commercial number will be used.

CONTACTING OTHER GOVERNMENT AGENCIES/ORGANIZATIONS

For contacting other Government agencies and organizations, see the Washington Agency Directory section of this Directory.

FTS—FEDERAL TELECOMMUNICATIONS SYSTEM

The Federal Telecommunications System (FTS) is a government network of leased long-distance lines managed and operated by the General Services Administration to provide long-distance services at much less cost than commercial services. FTS is *not a free* service. Its use is subject to the same local restrictions and regulations as govern commercial toll facilities.

The FTS will be used by NASA employees and NASA contractors for placing all official long-distance telephone calls with four exceptions: 1) collect calls; 2) calls to foreign countries; 3) calls so urgent as to dictate immediate completion at a time when FTS circuits are continuously busy; or 4) calls for which the charge for the first three minutes will be 50¢ or less.

CALLING PROCEDURES

Numbers to be called must be known *before* placing a call. If the number is not known, consult the FTS Users Guide for "Information and Assistance" listings. FTS operators *cannot* furnish commercial information. For commercial numbers dial 9 + are code of the city you wish to call and 555-1212.

ON-NET TO ON-NET (FTS number to FTS number)

Dial 8 + the seven digit number

ON-NET INFORMATION: Dial 8 + the seven digit number of FTS Information and Assistance in the city you want to call. The operator will give you the correct FTS number to dial. (see FTS Operator listings beginning on page 6 of FTS Users Guide)

ON-NET TO OFF-NET (FTS number to Non-FTS number)

Dial 8 + the 10-digit commercial number

ONLY THE WASHINGTON, D.C. METROPOLITAN AREA MAY DIAL DISTANT CITIES DIRECT.

COMMERCIAL INFORMATION: Dial 9 + the area code for the city you wish to call, then 555-1212. After obtaining the correct commercial number hang up and use FTS to place your call.

Headquarters employees using FTS outside the Washington Metropolitan area should consult the FTS Users Guide.

OFF-NET TO ON-NET (Non-FTS number to FTS)

NASA policy does not allow employees or contractors to place off-net to on-net calls.

FTS OUTSIDE CONTINENTAL US

To place the following calls during working hours dial the Special FTS Operator and provide the following information: 1) your name, 2) your agency bureau code, 3) the number you are calling, 4) your FTS telephone number.

ALASKA: Dial 8 + 907 plus seven digit number

HAWAII: Dial 8 + 808 plus seven digit number

PUERTO RICO: 8 + 809 plus seven digit number

AMERICAN VIRGIN ISLANDS: 8 + 809 plus seven digit number

CANADA: Dial 8 + the associated FTS gateway switchboard listed on page 14 of the FTS Users Guide

TELECONFERENCE SERVICE—NASA—See section entitled "How to Set up a Teleconference"

FTS CONFERENCE SERVICE:

Conference service is available to telephones connected to the FTS *within* the contiguous 48 states. Up to 28 intercity telephones may be connected to a conference call. Conference calls should be scheduled *at least three hours in advance.* Conference originator is responsible for notifying all participants of date and time period of conference.

TO PLACE A CONFERENCE CALL:

For conference calls with up to 3 local and 2 long distance telephone numbers, call 9-472-1208. (No charge for this conference call service.)

The following information must be provided:

1. Originator's name and agency bureau code;
2. Data and time of proposed conference;
3. Name, location, and FTS number of each participant.

Further information may be obtained by calling the Conference Control Center.

FTS TROUBLE REPORTS

User should immediately call the local FTS Operator and supply the following information:

1. Your FTS telephone number, agency, and location;
2. Telephone number and location of the dialed telephone;
3. Brief description of trouble encountered, such as "noisy", "no ring", "echo", or "cut-off".

WHEN ON OFFICIAL TRAVEL

Headquarters travelers may make official long distance calls over FTS from most Government (except DoD) installations, applying the procedures in use at each installation. FTS calls will not be placed from commercial telephones while on travel.

Official calls from places which are not connected with FTS cannot be made over that system, even though the call may be to NASA Headquarters. Such calls must be made commercially and payment for the calls may be accomplished in one of two ways: (a) If the traveler is authorized a NASA Headquarters Telephone Credit Card (see HQMI 1580.1), the call may be charged to the card and will be billed to NASA Headquarters, or (b) The traveler may pay for the call and claim reimbursement on his travel voucher.

MINIMIZE
OR
USE OF TELEPHONES DURING EMERGENCIES

While the telephone is one of the basic tools for conducting official Government business, the telephone systems are not engineered to provide simultaneous service to all subscribers at the same time.

To ensure that the telephone systems are not overloaded during emergencies, a system of controls was adopted by the National Communications System (NCS). The NCS also adopted the term "MINIMIZE" to identify these procedures.

Basically these procedures require that whenever an emergency occurs and "MINIMIZE" is imposed, it becomes necessary for each Government employee to forego or drastically limit his use of the telephone to permit those officials responsible for the high level affairs of Government to complete those telephone calls essential for resolving the emergency.

Official calls unrelated to the emergency should be delayed and no unofficial calls should be made until "MINIMIZE" is removed or the emergency is over. Observing "MINIMIZE" procedures is the responsibility of each individual NASA employee. For additional information regarding NASA's policy on this subject please refer to NMI 2530.10.

A new procedure for computing the cost of FTS inter-city (long distance) telephone calls is now in effect:

The way the procedure previously worked, a standard charge was applied for each call regardless of how long the user talked. A two minute call to Chicago cost the same as a ten minute call. The "time conscious" user, who made an effort to keep his/her calls short was subsidizing the user who monopolized the FTS circuits and made little or no effort to conduct business efficiently and free the line up quickly.

Now all calls will be timed and measured according to their duration. Charges will be based on the length of calls.

Long distance calls are very often necessary during the course of official business. Those of you who implement "time" controls will reap the benefit of a smaller telecommunications bill.

WFC	E-104	Pocomoke	James C. Floyd	928-5581	284

The Rooms shown are interconnected to form a NASA-wide Voice Teleconference Network.

To conduct a Teleconference:

1. Schedule the Teleconference Rooms at Headquarters and Field Centers.
2. Ask the Room Coordinator for assistance in providing or operating the equipment if necessary.
3. Call MSFC on 8-872-1771 (FTS) or 3-1771 on Teleconference Circuit or 8-872-4100 (FTS) or 3-4100 on Teleconference Circuit.

To report trouble on teleconference:

1. Call 8-872-1771
2. Give location, room number, circuit number from teleconference instrument, and description of trouble.
3. Report trouble when conference is in progress, if possible.

Each NASA Installation is provided with Facsimile Machines which can be used to transmit documents or figures needed by the Teleconference participants. These Facsimile Machines usually operate in an unattended mode, requiring notification of conferees that material has been sent. Facsimile equipment is located as follows:

PRIVACY ACT STATEMENT PERTAINING TO NHQ FORM 4

The Social Security Number *(SSN)* is required since the alphabetical section of the Headquarters Telephone Directory is automated and is keyed to this number. It is collected for this purpose under the authority of PL 93-579. Although providing the SSN is voluntary on your part, failure to do so would result in our obtaining your number from your file.

Emergency Number .... Back Cover

Federal Information Center

If a call has nothing to do with your office or NASA, direct the caller to the Federal Information Center. A specialist will find the office with the answers.

Federal Information Center:

7th & D Streets, S.W.
Room 5716
Washington, D.C. 20407
(202) 755-8660

NOTE: While Some Office Moves and Code Changes Are In Process, This Directory Is Current As Of April 15, 1982.

USE OF OFFICIAL TELEPHONES FOR PERSONAL BUSINESS

Government telephones are not to be used for personal business (see NMI 2540.1). Telephone booths are located in all buildings for use in making personal calls.

CONTACTING FIELD PERSONNEL

The FTS system will be used for contacting personnel at all NASA installations with the exception of Goddard Space Flight Center, for which the commercial number will be used.

CONTACTING OTHER GOVERNMENT AGENCIES/ORGANIZATIONS

For contacting other Government agencies and organizations, see the Washington Agency Directory section of this Directory.

FEDERAL TELECOMMUNICATIONS SYSTEM (FTS)

The Federal Telecommunications System (FTS) is a government network of leased long-distance lines managed and operated by the General Services Administration to provide long-distance services at a cost much less than commercial services. FTS is not a free service. Its use is subject to the same local restrictions and regulations as govern commercial toll facilities.

The FTS will be used by NASA employees and NASA contractors for placing all official long-distance telephone calls with two exceptions: 1) collect calls or 2) calls to foreign countries.

CALLING PROCEDURES

Numbers to be called must be known before placing a call. If the number is not known, consult the FTS Users Guide for "Information and Assistance" listings. FTS operators cannot furnish commercial information. For commercial numbers dial 9 + area code of the city you wish to call and 555-1212.

ON-NET TO ON-NET (FTS number to FTS number)

Dial 8 + the seven digit number

ON-NET INFORMATION: Dial 8 + the seven digit number of FTS Information and Assistance in the city you want to call. The operator will give you the correct FTS number to dial. **(see FTS Operator listings beginning on page 4 of FTS Telephone Users Guide.)**

ON-NET TO OFF-NET (FTS number to Non-FTS number)

Dial 8 + the 10-digit commercial number

ONLY THE WASHINGTON, DC METROPOLITAN AREA MAY DIAL DISTANT CITIES DIRECT.

OFF-NET TO ON-NET (Non-FTS number to FTS number)

Headquarters employees using the FTS for off-net to on-net calls should call the FTS operator and have available the agency bureau code (Headquarters).

COMMERCIAL INFORMATION: Dial 9 + the area code for the city you wish to call, then 555-1212. After obtaining the correct commercial number hang up and use FTS to place your call.

Headquarters employees using FTS outside the Washington Metropolitan area should consult the FTS Users Guide.

FTS OUTSIDE CONTINENTAL UNITED STATES

To place the following calls during working hours dial the Special FTS Operator and provide the following information: 1) your name, 2) your agency bureau code, 3) the number you are calling, 4) your FTS telephone number.

ALASKA: Dial 8 + 907 plus seven digit number
HAWAII: Dial 8 + 808 plus seven digit number
PUERTO RICO: 8 + 809 plus seven digit number
AMERICAN VIRGIN ISLANDS: 8 + 809 plus seven digit number
CANADA: Dial 8 + the associated FTS gateway switchboard listed on page 3 of the FTS Users Guide

TELECONFERENCE SERVICE--See section entitled "How to Set up a Teleconference"

FTS CONFERENCE SERVICE:

Conference service is available to telephones connected to the FTS within the contiguous 48 states. Up to 28 intercity telephones may be connected to a conference call. Conference calls should be scheduled at least 3 hours in advance. Conference originator is responsible for notifying all participants of date and time period of conference.

TO PLACE A CONFERENCE CALL:

For conference calls with up to 5 local or long distance telephone numbers, call 9-472-1208. (No extra charge for this conference call service.)

The following information must be provided:

1. Originator's name and agency bureau code;
2. Data and time of proposed conference;
3. Name, location, and FTS number of each participant.

Further information may be obtained from the Conference Control Center, call 9-245-3333.

FTS TROUBLE REPORTS:

User should immediately call the local FTS Operator and supply the following information:

1. Your FTS telephone number, agency, and location;
2. Telephone number and location of the dialed telephone;
3. Brief description of trouble encountered, such as "noisy", "no ring", "echo", or "cut-off".

WHEN ON OFFICIAL TRAVEL

Headquarters travelers may make official long distance calls over FTS from most government (except DOD) installations, applying the procedures in use at each installation.

Official calls from places which are not connected with FTS may be made by contacting the FTS operator and having available the agency bureau code (Headquarters). Such calls may also be made commercially and payment for the calls may be accomplished in one of two ways: (a) if the traveler is authorized a NASA Headquarters Telephone Credit Card (see HQMI 1580.1), the call may be charged to the card and will be billed to NASA Headquarters, or (b) the traveler may pay for the call and claim reimbursement on his/her travel voucher.

Additional information on FTS can be obtained from the Buildings Management and Communications Section, ext. 51440.

MINIMIZE
OR
USE OF TELEPHONES DURING EMERGENCIES

While the telephone is one of the basic tools for conducting official Government business, the telephone systems are not engineered to provide simultaneous service to all subscribers at the same time.

To ensure that the telephone systems are not overloaded during emergencies, a system of controls was adopted by the National Communications System (NCS). The NSC also adopted the term "MINIMIZE" to identify these procedures.

Basically these procedures require that whenever an emergency occurs and "MINIMIZE" is imposed, it becomes necessary for each Government employee to forego or drastically limit his use of the telephone to permit those officials responsible for the high level affairs of Government to complete those telephone calls essential for resolving the emergency.

Official calls unrelated to the emergency should be delayed and no unofficial calls should be made until "MINIMIZE" is removed or the emergency is over. Observing "MINIMIZE" procedures is the responsibility of each individual NASA employee. For additional information regarding NASA's policy on this subject please refer to NMI 2530.10.

The Rooms shown are interconnected to form a NASA-wide Voice Teleconference Network.

To conduct a Teleconference:

1. Schedule the Teleconference Rooms at Headquarters and Field Centers.
2. Ask the Room Coordinator for assistance in providing or operating the equipment if necessary.
3. Call MSFC on 8-872-1771 (FTS) or 3-1771 on Teleconference Circuit or 8-872-4100 (FTS) or 3-4100 on Teleconference Circuit.

To report trouble on teleconference:

1. Call 8-872-1771
2. Give location, room number, circuit number from teleconference instrument, and description of trouble.
3. Report trouble when conference is in progress, if possible.

Each NASA Installation is provided with Facsimile Machines which can be used to transmit documents or figures needed by the Teleconference participants. These Facsimile Machines usually operate in an unattended mode, requiring notification of conferees that material has been sent. Facsimile equipment is located as follows:

NOTE: Multiple addressee messages can be sent by calling MSFC 3-5381 on the RapidFax phone. For assistance contact Joe Sobala, Code TN-1 Ext. 52480.

***Telecommunication Center**

TO REPORT A TROUBLE, call NASA Technical Communication Center (TCC) on 3-1771 (Rapidfax network), 872-1771 (FTS) or 205-453-1771 (commercial).

FOR RAPIDFAX TESTING AND INFORMATION, call Howard Copeland or Gene Phillips at the Rapidfax Test Center. The fax number is 3-4163, and the desk number is 3-4164, 872-4164 or 205-453-4164.

FOR RAPIDFAX BROADCAST, call 3-5381. (Have name and fax phone number of each location plus the number of pages to be sent.)

COUNTER READINGS*** During the first three working days of each month, write down the front and inside counter readings along with your fax phone number and send it to 3-4163.**

Federal Information Center

If a call has nothing to do with your office or NASA, direct the caller to the Federal Information Center. A specialist will find the office with the answers.

Federal Information Center:

7th & D Streets, S.W.
Room 5716
Washington, D.C. 20407
(202) 755-8660

NOTE: While Some Office Moves and Code Changes Are In Process, This Directory is Current as of October 1, 1982.

NASA HEADQUARTERS TELEPHONE DIRECTORY

USE OF OFFICIAL TELEPHONES FOR PERSONAL BUSINESS

Government telephones are not to be used for personal business (see NMI 2540.1). Telephone booths are located in all buildings for use in making personal calls.

CONTACTING FIELD PERSONNEL

The FTS system will be used for contacting personnel at all NASA installations with the exception of Goddard Space Flight Center, for which the commercial number will be used.

CONTACTING OTHER GOVERNMENT AGENCIES/ORGANIZATIONS

For contacting other Government agencies and organizations, see the Washington Agency Directory section of this Directory.

FEDERAL TELECOMMUNICATIONS SYSTEM (FTS)

The Federal Telecommunications System (FTS) is a government network of leased long-distance lines managed and operated by the General Services Administration to provide long-distance services at a cost much less than commercial services. FTS is not a free service. Its use is subject to the same local restrictions and regulations as govern commercial toll facilities.

The FTS will be used by NASA employees and NASA contractors for placing all official long-distance telephone calls with two exceptions: 1) collect calls or 2) calls to foreign countries.

CALLING PROCEDURES

Numbers to be called must be known before placing a call. If the number is not known, consult the FTS Users Guide for 'Information and Assistance' listings. FTS operators cannot furnish commercial information. For commercial numbers dial 9 + area code of the city you wish to call and 555-1212.

ON-NET TO ON-NET (FTS number to FTS number)

Dial 8 + the seven digit number

ON-NET INFORMATION: Dial 8 + the seven digit number of FTS Information and Assistance in the city you want to call. The operator will give you the correct FTS number to dial. (see FTS Operator listings beginning on page 4 of FTS Telephone Users Guide.)

ON-NET TO OFF-NET (FTS number to Non-FTS number)

Dial 8 + the 10-digit commercial number

ONLY THE WASHINGTON, DC METROPOLITAN AREA MAY DIAL DISTANT CITIES DIRECT.

OFF-NET TO ON-NET (Non-FTS number to FTS number)

Headquarters employees using the FTS for off-net to on-net calls should call the FTS operator and have available the agency bureau code (Headquarters).

COMMERCIAL INFORMATION: Dial 9 + the area code for the city you wish to call, then 555-1212. After obtaining the correct commercial number hang up and use FTS to place your call.

Headquarters employees using FTS outside the Washington Metropolitan area should consult the FTS Users Guide.

FTS OUTSIDE CONTINENTAL UNITED STATES

To place the following calls during working hours dial the Special FTS Operator and provide the following information: 1) your name, 2) your agency bureau code, 3) the number you are calling, 4) your FTS telephone number

ALASKA: Dial 8 + 907 plus seven digit number
HAWAII: Dial 8 + 808 plus seven digit number
PUERTO RICO: 8 + 809 plus seven digit number
AMERICAN VIRGIN ISLANDS: 8 + 809 plus seven digit number
CANADA: Dial 8 + the associated FTS gateway switchboard listed on page 3 of the FTS Users Guide

TELECONFERENCE SERVICE—See section entitled "How to Set up a Teleconference"

FTS CONFERENCE SERVICE:

Conference service is available to telephones connected to the FTS *within* the contiguous 48 states. Up to 28 intercity telephones may be connected to a conference call. Conference calls should be scheduled *at least 3 hours in advance*. Conference originator is responsible for notifying all participants of date and time period of conference.

TO PLACE A CONFERENCE CALL:

For conference calls with up to 5 local or long distance telephone numbers, call 9-472-1208. (No extra charge for this conference call service.)

The following information must be provided:

1. Originator's name and agency bureau code;
2. Data and time of proposed conference;
3. Name, location, and FTS number of each participant.

Further information may be obtained from the Conference Control Center, call 9-245-3333.

FTS TROUBLE REPORTS:

User should immediately call the local FTS Operator and supply the following information:

1. Your FTS telephone number, agency, and location;
2. Telephone number and location of the dialed telephone;
3. Brief description of trouble encountered, such as "noisy", "no ring", "echo", or "cut-off".

WHEN ON OFFICIAL TRAVEL

Headquarters travelers may make official long distance calls over FTS from most government (except DOD) installations, applying the procedures in use at each installation.

Official calls from places which are not connected with FTS may be made by contacting the FTS operator and having available the agency bureau code (Headquarters). Such calls may also be made commercially and payment for the calls may be accomplished in one of two ways: (a) if the traveler is authorized a NASA Headquarters Telephone Credit Card (see HQMI 1580.1), the call may be charged to the card and will be billed to NASA Headquarters, or (b) the traveler may pay for the call and claim reimbursement on his/her travel voucher.

Additional information on FTS can be obtained from the Buildings Management and Communications Section, ext. 51440.

MINIMIZE
OR
USE OF TELEPHONES DURING EMERGENCIES

While the telephone is one of the basic tools for conducting official Government business, the telephone systems are not engineered to provide simultaneous service to all subscribers at the same time.

To ensure that the telephone systems are not overloaded during emergencies, a system of controls was adopted by the National Communications System (NCS). The NSC also adopted the term "MINIMIZE" to identify these procedures.

Basically these procedures require that whenever an emergency occurs and "MINIMIZE" is imposed, it becomes necessary for each Government employee to forego or drastically limit his/her use of the telephone to permit those officials responsible for the high level affairs of Government to complete those telephone calls essential for resolving the emergency.

Official calls unrelated to the emergency should be delayed and no unofficial calls should be made until "MINIMIZE" is removed or the emergency is over. Observing "MINIMIZE" procedures is the responsibility of each individual NASA employee. For additional information regarding NASA's policy on this subject please refer to NMI 2530.10.

The Rooms shown are interconnected to form a NASA-wide Voice Teleconference Network.

To conduct a Teleconference:

1. Schedule the Teleconference Rooms at Headquarters and Field Centers.
2. Ask the Room Coordinator for assistance in providing or operating the equipment if necessary.
3. Call MSFC on 8-872-1771 (FTS) or 3-1771 on Teleconference Circuit or 8-872-4100 (FTS) or 3-4100 on Teleconference Circuit.

To report trouble on teleconference:

1. Call 8-872-1771
2. Give location, room number, circuit number from teleconference instrument, and description of trouble.
3. Report trouble when conference is in progress, if possible.

Each NASA Installation is provided with Facsimile Machines which can be used to transmit documents or figures needed by the Teleconference participants. These Facsimile Machines usually operate in an unattended mode, requiring notification of conferees that material has been sent. Facsimile equipment is located as follows:

NOTE: Multiple addressee messages can be sent by calling MSFC 3-5381 on the RapidFax phone. For assistance contact Joe Sobala, Code TS Ext. 52480.

***Telecommunication Center**

TO REPORT A TROUBLE, call NASA Technical Communication Center (TCC) on 3-1771 (Rapidfax network), 872-1771 (FTS) or 205-453-1771 (commercial).

FOR RAPIDFAX TESTING AND INFORMATION, call Howard Copeland or Gene Phillips at the Rapidfax Test Center. The fax number is 3-4163, and the desk number is 3-4164, 872-4164 or 205-453-4164.

FOR RAPIDFAX BROADCAST, call 3-5381. (Have name and fax phone number of each location plus the number of pages to be sent.)

COUNTER READINGS*** During the first three working days of each month, write down the front and inside counter readings along with your fax phone number and send it to 3-4163.**
